

As our parent company, Addison Foods, Inc. celebrates its 40th Anniversary, we at Addison Transportation have reached the milestone of our 20th Anniversary.

Back in 1998 Addison Foods, Inc branched out to start a freight brokerage division. The brokerage at the time was called Addison Foods Transportation Services. In 2008 we shortened the name to Addison Transportation.

Our staff provides personalized service and can be reached 24/7. We strive to build long term relationships based on mutual trust throughout the cycles of transportation challenges.

As a long time member of the Transportation Intermediaries Association (TIA), Addison Transportation takes pride in our ethics, consistency and length of service of our staff with the company:
